

GLAZING ACCESSORIES

These products from Seac are purpose designed to allow fast and accurate positioning of the glazed units within window frame assemblies, either in the factory or on site. Since the initial introduction of this product range, further developments and improvements in specification have taken place and this brochure illustrates the wider range of Glazing Accessories now available from SEAC LTD.

Main Benefits to users of SEAC Glazing Accessories include:

- All products are moulded to close tolerances using only prime grade materials.
- International (ISO) colour coding for easy and quick identification
- Squareness of frame and alignment of glass are ensured
- Correct weight distribution is maintained
- Likelihood of glass 'eating into frame is eliminated
- Materials, will not deteriorate and are unaffected by sealants
