POLYTOPS®

# Number Plate Screws

POZI DRIVE

BOX QTY
100 APPROX

## Professional Fixings for Plates, Panels and Signs

POLYTOPS® screws provide trade professionals with advantages beyond secure fixing. Their integrated design saves installation time, and the colour-matched tops provide a clean, professional finish that blends with plates, panels, and signage.

Suitable for indoor and outdoor use, they resist weathering, corrosion, and UV exposure, making them reliable in demanding environments. Installers in automotive, construction, and signage industries trust POLYTOPS® screws for reliability, user-friendly application and the professional appearance customers value.

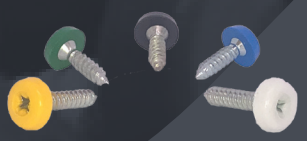

## Colours

They are available in white, black, blue, yellow and green. The green option is designed for use with Electric Vehicle (EV) number plates.

## Benefits

- **Pozi Drive Head:** Ensures reliable torque transmission with reduced cam-out and tool slippage
- **UV-Stable Head:** Colour-fast polymer cap resists fading and degradation from prolonged sun exposure
- **One-Piece Construction:** Moulded head eliminates risk of cap detachment, unlike push-on covers
- **Easy, Clean Installation:** Flush finish without the need for additional washers or caps
- **Non-Rusting Finish:** Manufactured with corrosion-resistant materials to withstand road salt, weather, and wash cycles
